

L 100

Universal laundry detergent

- Suitable for all types of textile
- Removes stubborn stains
- Very effective

Kenolux Textile is a complete range of products, systems and services for commercial laundries developed by CID LINES, to ensure the specific needs of the commercial laundries.

Product description

Kenolux L 100 is a concentrated liquid laundry detergent for machine wash at temperatures from 30°C to 95°C.

Properties

Kenolux L 100 is very effective thanks to its high concentration of wash active ingredients.

Kenolux L 100 is suitable for all types of textile (white as well as coloured).

Kenolux L 100 is effective to all kinds of soil: grease spots (oil, grease, cosmetics,...), protein spots (egg white, blood, chocolate,...).

Kenolux L 100 contains photo catalysts which destroy stubborn stains in the presence of sunlight.

Directions for use

Machine wash: 6 to 12 ml **Kenolux L 100** per 1kg (depends on the water hardness and the degree of pollution).
